Wayne PWR™ DC fast charger

DFS *Worldwide Brands*

A sleek, compact DC fast charger with a digital touchscreen and a payment terminal. The charger is white with a green vertical light strip on top and a black charging cable. The screen displays the Dover Fueling Solutions logo. The background features a pattern of hexagons.

A long-time leader in advanced fuel dispensing equipment, Dover Fueling Solutions® brings quality, innovation, and reliability to EV charging with the Wayne PWR™ DC fast charger.

Key Benefits

Engineered for Durability with weather protection and temperature reliability. Enabled with vandal-proofing, UV and scratch resistance.

Generate New Revenue Streams and Unlock Driver Insights. Leverage EV charging data to glean insights and provide personalized experiences. Monitor status of chargers in real time with cloud-based charge station management system.

Unrivaled Manufacturing Quality. With the 130+ year Wayne legacy of excellence and innovation, and designed and manufactured in the USA, Wayne PWR™ features a sleek, compact, NEVI-compliant design that is highly reliable and easy to maintain.

Comprehensive Service. Remote diagnostics, proactive monitoring, heartbeat checks with a nationwide service network.

Engaging Interface. Featuring an intuitive digital touchscreen and multi-language options, Wayne PWR™ displays power level, remaining time-to-full-charge and energy consumption.

Easy, Secure Payments. Features easy and secure payments through POS agnostic Wayne iX Pay® direct-to-host payment platform, with Wayne iX Pay® 2 Payment Platform Plug and Charge integration coming soon.

Thoughtfully Designed. Allowing for custom branding on the charger exterior and digital screen, Wayne PWR™ features a sleek, compact aesthetic plus green and red post lights indicating charger status from a distance.
