# Secure and Seamless Payment

Today's consumer is always looking for products and solutions that make their life easier, especially when it comes to payment. The DFS Orion™ Indoor Payment Terminal from Dover Fueling Solutions (DFS), is one such solution. This terminal offers your customers choice when it comes to payment options and more choice equals a better overall experience.

Used as a stand-alone payment solution for fuel and bank cards, alongside the Tokheim OASE™ (Online Authorisation and Switching Environment) payment gateway, the Orion Indoor Payment Terminal facilitates a flawless customer-facing, online payment solution that merchants can count on for years to come. With two models available, the Orion Indoor Payment Terminal provides an easy way to accept over 250 different fuel and bank cards that are interfaced through OASE, and transactions can be monitored in real time via the DFS Cloud, ONE portal.

It's simple, secure and easy to use. If it makes life easier for you and your customers, what's not to love? Make sure you invest in an Orion Indoor Payment Terminal today.

# Creating New Payment Possibilities

## Orion/p Indoor Payment Terminal

---

The Orion/p terminal is designed to be connected to any point-of-sale (POS) system using the International Forecourt Standards Forum (IFSF) POS to EPS standard interface to facilitate transactions via the OASE payment gateway. It features multi-language support, a full colour touchscreen, angled display and a tactile keypad. The new user interface has been designed to provide an optimized user experience.

## Orion/s Indoor Payment Terminal

---

The Orion/s terminal is a powerful, all-in-one merchant and cardholder payment solution. This standalone payment terminal combines the functionality for both the retailer and consumer to facilitate transactions via OASE. This payment terminal also features an on-board ticket printer and supports multiple languages, which provides ultimate flexibility. The full colour touchscreen, angled display and tactile keypad are all brought to life through a new user interface.

## ONE Portal

---

The ONE Portal web application provides a real time view on all transactions performed on the Orion payment terminal, as well as a daily reconciliation overview. The ONE portal also manages all personalized receipt messages (header and footer) and the sales articles (name, pricing) for the Orion/s terminal.
