

Your Next Move Counts

Every fuel retailer wants to maintain the highest possible standards throughout their network. It's inevitable that, over time, even for the most successful fuel businesses, you encounter issues on-site that require professional, expert input. That's where our bespoke Site Compliance audit service comes in. We're here to keep your standards high and your forecourt running smoothly. And our field technicians are here to deliver that service to you, right on-site.

Maintaining High Standards

Our audit includes:

- Bespoke assessment
- Full action plan
- Support and advice
- Legal documentation
- Fire safety
- Health and safety
- Maintenance
- Wetstock controls
- Forecourt safety
- Dangerous Substances and Explosive Atmospheres Regulations (DSEAR)

Maintaining High Standards

The bespoke Dover Fueling Solutions (DFS) Site Compliance audit service is designed specifically to suit the needs of fuel retailers who wish to maintain the highest possible standards throughout their network. Our site compliance audits cover all areas of legislation and include support and advice for any areas that need improvement. Our technicians visit your site and guide you through the entire process, leaving you with all of the necessary documentation. The complete, tailored, interactive action plan is then hosted on our secure web portal, which you can access and update at any time.

Each area of compliance is assigned a “red”, “amber” or “green” status, dependent upon the score achieved.

Any issues critical or otherwise, that are identified during the compliance audit are listed on the site compliance review document. DFS offers support to your network on best practice and to assist with the corrective action required to reach a satisfactory audit score.

Compliance Audit Scores

-  Indicates areas of compliance. No actions required.
-  Indicates area does not fully comply. Although not urgent, remedial action should take place as soon as possible.
-  Indicates non-compliance. All issues identified as critical require immediate attention and should be addressed as a matter of urgency.

Book Your Site Compliance Audit Today!
